ABOVEGROUND FLAMMABLE/COMBUSTIBLE/HAZARDOUS LIQUID STORAGE TANK REGISTRATION

Personal information you provide may be used for purposes other than that for which it was originally collected (s. 15.04(1)(m), Wis. Stats.).

Aboveground tanks in Wisconsin that have stored or currently store petroleum or regulated substances must be registered.
A separate form is needed for each tank. Send each completed form to the agency designated above.

Have you previously registered this tank by submitting a form? Yes No If yes, are you correcting/updating information only? Yes No
This registration applies to a tank status that is (check one):
In Use Closed - Tank Removed Abandoned without Product (empty) Fire Department providing fire coverage where tank is located:
Newly Installed Ownership Change (Indicate new owner name in block 2-attach deed) Closed - Cleaned, Tank not removed City Town Village
Abandoned with Product Temporarily Out of Service - Provide Date:

A. IDENTIFICATION
1. TANK SITE NAME SITE PHONE NUMBER: COUNTY
SITE STREET ADDRESS CITY TOWN VILLAGE STATE ZIP WI
2. TANK OWNER LEGAL NAME PHONE NUMBER: COUNTY
TANK OWNER STREET ADDRESS CITY TOWN VILLAGE STATE ZIP
3. PROPERTY OWNER NAME (If different than tank owner) STREET ADDRESS CITY STATE ZIP

B. SITE ID # FACILITY ID # CUSTOMER ID #
C. TANK CAPACITY (gallons) TANK AGE (age or date installed) VEHICLE FUELING? Yes No

D. LAND OWNER TYPE (check one) Refer to back
County State Federal Leased Federal Owned Tribal Nation Municipal Other Government Private

E. OCCUPANCY TYPE (check one) Refer to back
Retail Fuel Sales Terminal Storage Mercantile/Commercial Industrial Residential School
Agricultural (crop or livestock production) Backup or Emergency Generator Gov't Fleet Utility Other (specify):

F. TANK CONSTRUCTION Bare Steel Coated Steel Stainless steel Steel - Fiberglass Reinforced Plastic Composite Fiberglass or Polyethylene
Concrete Other (specify): If upgraded by internal lining give date:
Tank Double Walled? Yes No Overfill Protection? Yes No Spill Containment? Yes No

G. TANK CORROSION PROTECTION Sacrificial Anodes Impressed Current External coating N/A None

H. PRIMARY TANK LEAK DETECTION METHOD
Visual monitoring Automatic tank gauging Interstitial monitoring -> Electronic: Yes No Manual tank gauging

I. ABOVEGROUND PIPING CONSTRUCTION: Type: Pressurized (includes gravity/head pressure) Suction NA (check one) Tank-mounted pump Generator base tank
Material: Bare Steel Coated Steel Stainless steel Fiberglass Flexible Copper Unknown Other

J. UNDERGROUND PIPING CONSTRUCTION: Bare Steel Coated Steel Stainless steel Fiberglass Flexible Copper Unknown
N/A Other
Pipe Double Walled? Yes No Type: Pressurized (includes gravity/head pressure) Suction

K. PIPE CORROSION PROTECTION Sacrificial Anodes Impressed Current N/A

L. UNDERGROUND PIPING LEAK DETECTION METHOD Interstitial monitoring -> Electronic: Yes No Sump or cable sensor: Yes No
Tightness testing Electronic line monitor - ELLD Other

M. CONTAINMENT: Side material: Earth Concrete / block Steel Synthetic liner
Back material: Earth Concrete / block Steel Synthetic liner

N. TANK CONTENTS (Current, or previous product (if tank now empty)) Leaded Unleaded Gas-ethanol blend: % Diesel
Biodiesel: % Aviation Premix Fuel oil Kerosene New Oil New oil - Flash point less than 200°F
Waste/Used Motor Oil -> Used for Heating Hazardous Waste/Interface* Empty* Sand/Gravel/Slurry* Unknown
Other (specify): Chemical* Name: CAS #:
* If chosen, this tank is NOT PECFA eligible. Geo Latitude: Geo Longitude:

O. If Tank Closed, Abandoned or Out of Service, give date: Has a site assessment been completed? (see reverse side for details) Yes No
TANK OWNER LEGAL NAME (please print) TANK OWNER E-MAIL

TANK OWNER SIGNATURE (Note: By signing, signer is accepting legal and financial responsibility for the storage tank system.) DATE:

Note: Refer to comments on reverse side of form.

Definitions and explanations for completing this form

Land Owner Type - classifies the organization that owns the property the tank is located on. A “Private” landowner is residential, commercial, mercantile, industrial, farm, non-government owned public utility, or other business organization.

Occupancy Type (categories below) – identifies the occupancy in relation to ATCP 93 storage classifications.

Retail Fuel Sales	Tank is used to store any fuel product that is offered for sale in the retail market.
Bulk Plant Storage	Tank is used to store any fuel product that is offered for sale in the wholesale market.
Industrial	Tank is used to store any regulated product associated with an industrial: fleet, heating, industrial fabricating, manufacturing, processing or refining.
Mercantile/Commercial	Tank is used to store any regulated product associated with a commercial business fleet, heating, or processing, e.g., service company, medical facility, freight, airport, apartment, etc.
Utility	Tank is used to store any regulated product associated with a public or private water or power utility fleet, heating, or processing.
Residential	Tank is used to store any regulated product for residential heating or residential watercraft/maintenance fueling.
School	Tank is used to store any regulated product at public or private primary, secondary or higher educational institution.
Agricultural	Tank is used to store any regulated product directly associated with crop or livestock production, meaning a “farm.” Refer to ATCP 93.050(48)
Back-up or Emergency Generator	Tank is used to store any fuel used to power a backup or emergency generator; a fire pump, or as back-up to a primary fuel source such as fuel oil back-up to a natural gas fired boiler.
Terminal Storage	Tank is associated with a distribution facility such as an interstate pipeline. These tanks are typically field erected structures of 500,000 + gallon capacity. A million gallon tank at an ethanol production site would be “industrial,” not “terminal storage.”
Government Fleet	Tank is located at a facility owned and operated by a federal, state, county or local government entity. The tank may be used for vehicle fueling, waste oil or heating purposes.

CLOSURE ASSESSMENT INFORMATION

Requirements for a site assessment at the closure or change in service for ATCP 93 regulated aboveground storage tank are outlined in ATCP 93.460 and 93.465.

Closure site assessments (TSSA Form Part B) are to be submitted to the Department as well as the DNR as required in the TSSA Guide: http://datcp.wi.gov/Consumer/Weights_and_Measures/Storage_Tank_Regulations/index.aspx
